To the Abolitionists of the United States :

Our undertaking is the abolition of American Slavery, every part and parcel of it. To this understanding we are promotted by importial love for the whiteman and the black man, for the slavebalder and the slave, and by surreme love for Him, who gave His Son to stie for all nien, because Ite lovesi all men.

The means we amploy are moral and political. They are, prayer to God and argument with man, and votes that agree with, and give effect to prayer and argument. Another Presidential election is approaching. Can we rely on any of the great parties of our country to do our WORK in find election? On NONE OF THEM. NORE OF TERM GO FOR THE ABOLITION OF SLAVERY. Only one of them is so much as mui-slavery; and even that one is anti-slavery at but a single point. The Republican naty opposes the introduction of slavery into the Terriories, but endowes its constitutionality in all the slave States.* It lets alone the whole slave trade, not only that between the States, but the coastwise trade also, which is carried on under the sanction and regulations of Congress. It lots alone slavery in the District of Columbia. It even lets slone the Fugitive Slave Bill, and well it may, for it fully admits that all the States, and does not deny that all the Territories, also, are the constitutional hunting-ground for slaves. The Republican party would have Kansas a free State. Nevertheless, it would allow the size cholder a rafe pursuit over all its prairies

We need not have said all this to prove that we have no right to rely on the Republican party to do our work in the coming election. Enough to this end is the fact that the slavery which we are trying to abolish this party spreads its wing over, and denies our right to abolish nough to this end is it that whilst we hold slavery to be preseminent piracy and a naked outlaw, and that the Constitution not only does not, but could not legalize it, this party, on the contrary, regards our endeavor to liberate ni'lions of slaves as a war upon the constitution and a violation of law,

nd through all its towns after his bleeding and broken-

hearted fogitive,

Let it not be supposed that we underva ue the charac ter of the members of the Republican party. Not a few of them are our personal friends-extremed and beloved by us. A considerable portion of them, we trust, are Abolitionists at heart, and subscribe to our principles .-But the more excellent the character of the members of this party, the more injurious the false policy which they have suffered to be stamped upon the party. That such men should make such concessions to slavery, is lament able indeed. Abo, for Freedom, when even her own professed friends consent to yield so much to slavery 'n exchange for so little for freedom!

Is it said that policy dictates the adoption of a platform on which all can aland who are opposed to the extension of slavery, be the degree or character of their opposition what it may? And is it argued and expected that the Republicae party, though starting on the low ground of this policy, will rise into an Abolitic a party 4. Wasnewer that ettel, a policy will, from its own inevitable influence keep down and drag down the party that adopts it-Hence, should the Republican party get the reins of government, it will endeavor to satisfy the nation by restoring the Missouri Compromise, and acquiescing, at every other point, in the present possessions and practices of slave y. It would feel itself bound, by the implications of its phatform, not to disturb those possessions and practices. Thousands in the Republican party mean that it shall work the overthrow of slavery, and doubtless many slaveholder fears this result. Nevertheless, the success of the Republican party may prove the confirmation rather than the subversion of slavery, the most authoritative and effective endorsement of slavery, because endorsed by anti-slavery men.

It is manifest, then, that we, who refuse all concessions to slavery, and all terms with whatever piracy, must lay car account with doing our own work in this election.-We note nominate our candidates and vote for them. and do what we can to persuade others to vote for them Why should we despuir of electing them? Mighty will be the appeal of our principles to all who love justice and liberty for all. In their hosoms the motto of the Republican party. 'Slavery sectional—liberty national," can awaken no embosiasm, and call up no response .-The words that tell our truthful, glorious, heavenly prin-Piple, " PLAYERY FOR NONE -- LIBERTY FOR ALL P. a. e the words that have power to unlock their hearts and culist their sympathics, and fire their zeal. Thousands may come to us who would never consent to go to them, Thousands may desert their standard to gather around curs. Why, indeed, should not the whole Republican party do this? The comparatively little good for which it goes, we go for also. And should they refrain from coming to us, because, in addition to this, we go for other and immensurably greater good? Think us not extrasagan) when we say that it is far from improbable that the Republican party will come to our standard. Anoth er great outrage at the hands of the Slave Power-such as the slaughter of a hundred men in Kansas—and there will quickly be but two political parties in the nationone party to kill slavery, and another to save it. A party to abolish slavery and a party to defend it will be the only political parties for which we shall then have room or for which we shall then have the least demand. This was virtually admitted by Abliah Mann when, amid the loud applause of the Pittsburg Convention, he said if the Government proceed to the shedding of a sin

gle drop of blood, for the purpose of having the infamous laws of the Border Ruffian Legislature enforced, I give it to you as my deliberate convict-on, and on my responadditive as a citizen, that it will be the and of human slavery in this land,"

In such an event, what room would there be for Republican party, with its distinct admission that " the slavelobing interest, in the States where it exists, is ontitled, under the Constitution, like all other local interests, to immunity from the interferences of the Genera Government "I In ruch an event, what room would there be for the Republican party, a party "disclaiming any intentions to interfere with slavery in the States where it exists "?? In such an event, what room would there be for the Republican party, whose Convention referred to was presided over by a flaveholder, representing a slaveholding constituency, and bringing with him, as he himself stated, a "Scuthern p afform," designed, as he himself stated, to restore the Missouri Compraintse as "Cie security of the shive institution"; the party that, like the Jamus baced Colonization Society, has its pro-shivery appeal for the South, and its anti-slavery append for the No. 12 saparty in which slaveholders and anti-slavery men re to unite for the common object of a mutual compromise that shall be " the " pale of all existing commotions," and that shall nevertheless leave the slave in his chains ! §

We must not, however, concern ourselves inordinately with the question, whether there will be few or many to come to us. We should find sufficient encouragement to go forward in the assuranc" that God is with us In claiming, as we do, the immediace and unconditional liberation of every slave, and in denying, as we do, the possibility of law for slavery, we cannot doubt that we have the Divine approbation and the Divin blessing,

Meet with us, then brethren, at Syracuse, on Wednesday the 28th day of next May, for the purpose of nominating men, for President and Vice-President of the United States, who have the ability, the integrity, and the courage to assert their principles, and who will wield their official powers for the deliverance of every American shvehokier, and for the salvation of the whole country. We donness too, that we should expect to see still great er numbers of you but for our apprehension that most of you are still in the habit of looking to others than Ab.: litionists, and waiting for other than Abolitionists, to do your work. In 1848 you must wait to see what the Buf-filto platformparty would do. It did nothing but die,-In 1852 you must wait too see what the Pittsburg platform party would do. That too, did nothing but die .-And now, will you wait to see what the second Pittsburg platform party will do? That is just as sure to die as were the others. At its very birth it refuses to inscribe on its banner the motte of its predecusors, "No more Slave States," and railies, in company with slaveholders on the one is no of restoring the infamous Missouri Compromise, in which Freedom was betrayed, the Slave Power enthroned, and its career of auccessful aggression

Every anti-stavery party that dies not rise to the lev el of an Abolition purty is without root and must wither away. To expect success for this new Pitteburg purtyfor this policy of stopping the progress of always at one potot, whilet indereing and guaranteels: the great mans of it—is essential lines folly than to expect to cave the city
